SURFACE TEXTURE

Our superior oak and mahogany textured skin technology with “High Definition Panel Embossments” provide an authentic wood finish look. Mennie achieves the real feel and look of a wood textured surface without the disadvantages that come with it (i.e.: fading, rotting, warping, etc.).

COMPOSITE RAILS ON ALL EDGES

Our fiberglass doors have composite (PVC) rails that surround the parameter of the panel making them 100% water proof. The mortise and tenon joints provide exceptional strength that prevents any movement of the door components, which is one of the reasons why we offer lifetime warranty!

LVL LUMBER COMPONENTS

LVL (Laminated Veneer Lumber) is the strongest man-made wood material. We created the world’s first PVC LVL cap wrap with a tongue-in-groove rail lock system giving our doors a solid frame structure with complete moisture barrier.

DOOR CORE

Our door core is made of high-density CFC-free polyurethane foam, providing six (6) times the insulation of a traditional wood door. With this added insulation also comes superior sound proofing.

PANEL DESIGN

Both our EXECUTIVE panel and RECESSED panel doors easily meet the demanding contractor and customer needs. The elegantly detailed architectural panels feature deep shadow lines that add to any home’s strong curb appeal.
